

Field	Response
1. Contact Information Name	Rene Therrien
1. Contact Information Department	Geology and Geological Engineering
1. Contact Information Email	rene.therrien@ggl.ulaval.ca
1. Contact Information University	Universite Laval
1. Contact Information Personal Web Page	https://www.ggl.ulaval.ca/departement-et-professeurs/personnel-et-professeurs/professeurs-reguliers/professeur/show/therrien-rene/?no_cache=1&cHash=0ffee0ec6b0157a5d38eff68112be82e ; https://scholar.google.ca/citations?hl=fr&user=NI_DEYcAAAAJ
1. Contact Information Phone	418-656-5400
2. Please indicate the alignment of your research expertise to one or more of the following GWF objectives/ deliverables:	<p>Improve disaster warning – develop scientific knowledge, monitoring and modelling technologies, and national forecasting capacity to predict the risk and severity of extreme events</p> <p>Predict water futures – use Big Data to make informed decisions, better models to assess change in human/natural land and water systems</p>
3.1 Please indicate the alignment of your research expertise to the GWF Science Pillar 1 – Diagnosing and Predicting Change in Cold Regions:	<p>Hydrometeorology and Climate Change – improve understanding and prediction of how climate change influences water availability and extreme events</p> <p>Hydrology and Terrestrial Ecosystems – improve understanding and prediction of hydrological and terrestrial processes and watershed hydrology and how processes and systems will evolve and interact under a changing climate</p>
3.2 Please indicate the alignment of your research expertise to the GWF Science Pillar 2 – Developing Big Data and Decision Support Systems:	Decision Support Systems – predictive and diagnostic modelling system development and deployment for hydrology, water quality and water resources

Field	Response
3.3 Please indicate the alignment of your research expertise to the GWF Science Pillar 3 – Designing User Solutions:	<p>Water Environment – ecosystem health and conservation, water management</p> <p>Agriculture – including farming, food processing, country foods</p> <p>Energy & Natural Resources – including mining and hydroelectricity</p> <p>Other Industry – Including Insurance, Finance, Measurement and Engineering sectors</p>
4. Please indicate the alignment of your research expertise to one or more of the following user needs:	<p>Projects to improve environmental monitoring, including sensors, drones, satellites, river basin observatories, lake buoys, software development, chemical fingerprinting, real-time monitoring, citizen science, and integration of Big Data platforms for Cold Region water science.</p> <p>Model development to support climate change impact assessment, including regional climate change modeling, hydrological and ecological modeling, specifically involving improvements in forecasting and predictive capacity, downscaling, and scenario development of water futures.</p> <p>Complex system modeling and analyses reflect the growing awareness of interacting dynamics in human–natural coupled systems. These studies emphasize the inter–relationships between water resources and transportation systems, infrastructure, energy generation, mining, food production, and source water protection.</p>
5. Please list regions of Canada and the biomes (e.g. mountains, boreal forest, Great Lakes–St Lawrence), watersheds, and/or river basins where you are interested in conducting research for GWF:	Great Lakes–St Lawrence River Basin; Northern watersheds
6. Please list any other expertise or recent experience (subjects, river basins, technology) not covered by above query that could help us in assessing your alignment with the GWF programme:	Hydrogeology of northern regions; Integrated hydrologic model development and application (coupled surface and groundwater flow and transport models)
