Women's participation in water governance in the global north

MARIA MORA

PhD Candidate,
School of Environment and
Sustainability

MONDAY, FEB. 11, 2019

2 - 3:30 PM

CONVOCATION HALL | USASK

Join us on the
**International Day of
Women and Girls in Science**
for our first lecture of the
inaugural Women and Water
Lecture Series.

This lecture aims to showcase
thematic research on the
challenges and gender-
related impacts that climate
change has on both earth
systems and social
systems.
