

Hydrology Research Technician

University of Calgary

Physical Hydrology Laboratory (www.ucalgary.ca/hayashi/) at the University of Calgary is hiring a full-time research technician in support of field-based research projects on surface and subsurface hydrology. Responsibilities include fieldwork, laboratory work, and data analysis using computers. The ideal candidate will be a recent graduate from B.Sc. or M.Sc. program in related disciplines (e.g., earth science, environmental science, civil engineering) with a strong background in hydrology and/or hydrogeology. Willingness to work in harsh environments and the ability to learn new research skills are essential for this position.

Hydrological study of mountain streams.

Groundwater monitoring.

If you are interested in this position, please send a copy of the most recent academic transcript and CV, and the name and contact information of three references to:

Dr. Masaki Hayashi
Department of Geoscience
University of Calgary
E-mail: hayashi@ucalgary.ca

The starting date for this position is April or May 2020.
