and Water Testing

HAUDENOSAUNEE SUMMIT ON CLIMATE CHANGE OUTCOMES

For the first time, Haudenosaunee leaders and environmental health teams will gather to discuss **water, climate change and environmental health issues**. We invite the community to join us for dinner and a presentation of outcomes from the gathering. We hope to share not only what is concerning our communities, but our **ideas and solutions moving forward**. For Six Nations community members, sign ups for water testing will be available as well if you would like to **volunteer to help clean up the creek**.
