

PRAIRIE WATER ANNUAL PARTNERS MEETING 2022

“Collaborations and partnerships for successful water outcomes”

AGENDA

08:45 – 09:00	Meeting sign-in	
09:00	Welcome and blessing from Elder Roland Duquette	
SESSION 1 - Plenary		
Time	Activity	Topic
09:15 – 09:25	Opening remarks	Introduction, moving forward with Prairie Water. <i>Alasdair Morrison, Research Officer, Prairie Water.</i>
09:25 – 10:25	Presentations	Project summaries from team leads. <i>Colin Whitfield</i> <i>Chris Spence</i> <i>Pat Lloyd-Smith</i> <i>Graham Strickert</i>
10:30 – 11:00	Coffee and chat	Partners will be randomly assigned to a breakout room where we can chat about our experiences with water of the prairies over the past few years. A host will be there to facilitate introductions

SESSION 2 – Panel discussion		
11:00	Introduction to session	Format and etiquette.
11:00 – 12:00	Panel Discussion	A panel of Prairie Water partners will discuss the experiences of using knowledge generated by Prairie Water.
12:00 – 12:05	Invite to session 3	Words of thanks, format and goals of session 3
12:05	Closing blessing	Closing blessing from Roland Duquette
SESSION 3 – Conversations, opportunities, and feedback		
12:15 until needed	Breakout session (Please consider the questions discussed in the panel session and suggested in the support document .)	“Themed” breakout rooms will be opened again to host conversations about ways and means of sharing Prairie Water outputs in your organisations. The “themes” are based on news headlines over the past few years. <ol style="list-style-type: none">1. Sask. lakes' water quality challenges too important to ignore2. Have the last two years of flood and drought become agriculture’s ‘new normal’?3. Climate change will force farmers to adapt what and how they grow, but they’ve already been doing that.4. Researcher says provincially-encouraged oil, gas extraction method could put groundwater at risk5. Saskatchewan wetlands at critical point, protection policy needed

PRAIRIE WATER
GLOBAL WATER FUTURES

* Please note that breakout sessions will be recorded. Only the audio files will be kept. We are recording these sessions to help us ensure we progress the development of this tool with respect to the user needs that are expressed in the workshop. None of this information will be used for academic research or publication, and recordings and transcripts will be anonymised. We may report any key points of interest that we find from these discussions back to attendees. If you have any concerns prior to the meeting, please contact Alasdair at alasdair.morrison@usask.ca .
